IT'S ABOUT TIME™

Simplify operations, enhance guest experiences, and increase your profits.

FOCUS ON WHAT MATTERS MOST

Running a restaurant has never been more complex or time consuming. Restaurant technology, meant to speed up operations and simplify tasks, has instead added stacks of devices and extra steps.

It's About Time™ for technology to work for you.

Welcome to DinerIQ, an all-in-one solution to transform the way you run your business: more covers, faster table turns, more efficient service, satisfied customers, fewer mistakes and less waste.

Imagine connecting with your guests in more meaningful, personalized ways.
Offer tailored promotions according to each guest's previous visits and overall preferences.
Leverage real-time notifications to create VIP experiences for every guest.

With DinerIQ, watch your profits increase while your problems disappear.

LESS HASSLE

You're on your own trying to solve:
* Chip and PIN (EMV) technology
* Attracting new guests
* Bringing back repeat guests
* Order/delivery/pick-up complexity
* Guest feedback and marketing

It's all essential to your business. And it's all disconnected. You're single-handedly trying to put the pieces together.

With DinerIQ, link your current POS and existing hardware to our mobile applications, helping staff and management accomplish every task seamlessly.

One solution puts what you need at your fingertips!

BETTER CHOICES

DinerIQ's Floor Management App offers real-time analytics, consolidated guest reviews, customized reports for pre-shift or weekly meetings, and more.

Conveniently access key information from your office computer or on-the-go from any mobile device. The POS-integrated Guest Management Dashboard not only creates reports, but also helps pinpoint what actions to take to increase repeat guest visits, improve service and make more money.

With DinerIQ, choose exactly what you need. Everything is seamlessly integrated.
